

中文：迅杰科技股份有限公司是專業的積體電路設計公司，成立於1998年，秉持著「迅速」&「傑出」的經營哲學，致力於提供迅速的服務與傑出的產品，以滿足客戶的需求。迅杰專精於筆記型電腦、可攜性產品與其他資訊應用產品的IC研發、銷售與服務。憑藉專業的研發團隊與卓越的經營方法，迅杰的產品與服務素以競爭力、創新與高品質聞名，多年來與全球客戶維持深厚的合作關係。隨著產業技術演進，迅杰積極拓展多元應用領域，近期更將研發觸角延伸至無人機事業。我們致力於提供無人機產業更高效、穩定的關鍵零組件與系統整合解決方案，為智慧航空領域注入新的動能。展望未來，我們仍將秉持一貫的經營理念，致力於研發新產品與維持公司穩健成長。我們的最終目標是成為客戶心中最具效率與效能的合作夥伴，並在全球IC設計產業中成為首屈一指的指標性代表。

英文：Founded in 1998, ENE Technology Inc. is a leading professional IC design house. Committed to our core philosophy of being "Express" and "Excellent," we strive to provide rapid service and outstanding products that exceed customer expectations. ENE specializes in the research, development, sales, and service of ICs for laptops, portable devices, and diverse information applications. Our professional R&D team and strategic management have earned ENE a reputation for innovation, high quality, and market competitiveness, fostering long-term partnerships with global industry leaders.

In response to the evolving technological landscape, ENE has actively expanded into the UAV sector. We are dedicated to providing the drone industry with high-efficiency, stable key components and comprehensive system integration solutions, driving the future of intelligent aviation.

Looking ahead, ENE will continue to focus on innovative R&D and steady corporate growth. Our ultimate goal is to become the most efficient and effective partner for our clients and a premier benchmark in the global IC design industry.
